Introduction

MINERAG Ltd. was established in Szekszárd in 1990. In the beginning, the main activities were trade, laboratory studies and consultation. For the time being, no trade activity is carried out but adult education and research-development are our new activities.

Twenty-seven employees work for MINERAG Ltd. Most of them have a university degree in the special field of food industry, agriculture, environmental protection, plant protection, horticulture and chemical industry. The consultants have licences to perform expert activity.

Our qualified and continuously educated colleagues provide fast and accurate services for you.

We have the licence given by the Ministry of Environmental Protection and Water Management to perform environmental protection examinations in the field of air cleanness protection, protection against the adverse effects of dangerous waste and noise and vibration protection, water and soil conservation.

Our quality control system meets the requirements of MSZ-EN-ISO-9001:2001 standard issued by the TÜV Rheinland Group. As a certification body, MINERAG Ltd was accredited by the Hungarian National Accreditation Body (NAT) (MSZ EN ISO/IEC 17025:2005).

As a member of the GAFTA, the laboratory carries the registration number 144/2005 and participates in the international cereal ring analyses organised by the laboratory.

Our services are increasing year by year according to the arising demand.

Every year some 20,000 to 60,000 soil samples are examined with the aim of nutrient-management, in addition approximately 6,000 other samples, in the fields mentioned above.

The laboratory has quite a wide-range of partners all over the country and even over the border.

The technical equipment is suitable for performing our measurements accurately and correctly.

The instruments are being developed continuously, among our large instruments AAS, ICP, GC, GCMS, HPLC can be found.

Main activities, products and services

Accredited sampling

- cereals, oilseeds, oilseed semolina, animal and vegetable fats and oils,
- feed and basic raw materials,
- wines, plants,
- environmental and agricultural aimed soil,
- sewage, sewage sludge, water,
- semi-liquid manure, organic manure, artificial fertilizer.

Accredited laboratory trials

- oilseeds, oilseed semolina, animal and vegetable fats and oils,
- feeds and basic raw material,
- Hungarian paprika, wines,
- soils,
- sewage, water, sewage sludge,
- semi-liquid manure, organic manure, artificial fertilizer.

Consultation

- preparation of nutrient-management plan, preparation of soil expert opinion (plantation planting, landscaping, soil quality improvement, saving humus during investments on soil, re-cultivation, irrigation, semi liquid manure for agricultural application, sewage and sewage sludge for agricultural application)
- environmental protection,
- animal husbandry and food economy,
- wine-growing,
- Build up HACCP food safety, ISO 900 quality control, ISO 14000 environment-central control systems.

Research development

MINERAG Ltd. has been performing agronomical and seed trials on cereals, sunflower and maize in its experimental field of 35 ha since 1995.

References

We have a wide range of customers among them there are environmental protection companies, waterworks, sewage farms, industrial works, plant growers, stock-breeders, gardeners, wine makers, feed manufacturers all over the country as well as in the neighbouring countries.

We performed overall environmental protection reviews on a number of stock-farms (Szekszárdi Agricultural Joint Stock Company, Kaposszekcsői Agricultural Joint Stock Company, Felsőnána Agrár Ltd., Kossuth Agricultural Joint Stock Company, Milkmen Ltd, Paksi Dunamenti Agricultural Joint Stock Company, Zámolyi Agricultural Joint Stock Company, Sallai Imre Cooperative Farm, "A and H" 2000 Ltd., Sombereki Agricultural Joint Stock Company, Nagykar Ltd, Makrom Ltd, Aparhanti Cooperative Farm, Zombai Cooperative Farm) on communal dumps (Felsőnána, Bába, Szedres) and on industrial sites (Gemenc Volán Closed Joint Stock Company, MIZO Closed Joint Stock Company).

Future

We offer the above listed services working in Hungary for foreign market cooperation and we also offer cooperation to strengthen economic positions.

We are seeking an advisory firm to establish a joint company.

We are seeking productive companies which accept our services.

We are seeking connections with organisations experienced in the field of economy and technology (chambers and other professional associations and research places).
