REM-FWS Víz-, Levegő- és Talajtisztítási Rendszerek Kft. (REM-FWS Water-, Air- and Soil Purification Systems Ltd.), a fully-owned subsidiary of BAUER Resources GmbH, a member of the German BAUER Group, has been active on environmental markets since 1996. Our activities encompass a wide range of areas related to the remediation of environmental damage, water treatment (industrial and communal waste waters in the range of 1000 – 5.000.000. p.e., preparation drinking water by Combined Chemical and Physical Methods like Ultrafiltration), flood and rain water treatment and regulation systems.

Besides our mother company we represent many high technology German companies like:

- Invent Umwelt- und Verfahrenstechnik AG – Advanced Mixing and Aeration for Water Treatment Applications
- Bgu-Umweltschutzanlagen GmbH – Flood and Rain Water Treatment Systems
- Wessel Umwelttechnik GmbH – Off- Gas Treatment and Purification Systems for Industrial Applications
- FWS Filter- und Wassertechnik GmbH – OEM of Ultrafiltration Equipment, Drinking Water Preparation Units, Remediation Systems, Waste Water Facilities
- SBN (Schachtbau Nordhausen GmbH) – Construction of Waste Water Facilities and Biogas Facilities form Design to Technical Construction

We lay great emphasis on the development of the best available technical (BAT) solutions related to the elimination of environmental problems. We offer the following services, procedures, and equipment for use, taking into account the customer's requirements:

- sales (parts or turn-key systems)
- leasing, renting,
- operation (complete systems)

Technologies and Products:

Innovative Technologies and products for Waste Water Treatment and Drinking Water Preparation for Communes in the range of 1.000. – 5.000.000. p.e.

Brand Name Products Sold among many more:

Hypercalssic Mixer

Hyperclassic Mixer Aerator

E-Flex Membrane Aerator

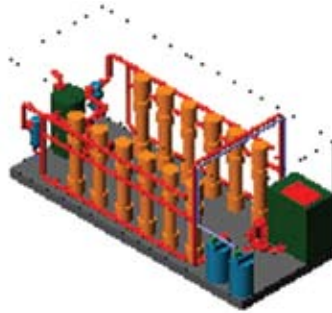

FWS Ultrafilter Units UF-RANGE for Drinking Water Preparation

FWS CATOX for Catalytic Oxidation of Stripped Gases

And many more

Our Services

- Design, Manufacture, and Implementation of Tailor-made Water Treatment Systems
- Leasing and Selling Equipment
- Environmental Status Survey, Consulting
- Obtaining Official Licenses
- Drinking-, Waste-, and Groundwater Treatment
- Soil Remediation
- Exhaust and Workplace Air Treatment
- Complete Environmental Remediation
- Environmental Review
- Monitoring
- Sales Division: Activated Carbon, Chemicals for Waste-, Drinking-, Groundwater Purification
- Trade Agency of Environmental Companies :
 - Invent AG
 - BGU-Umweltschutzanlagen GmbH
 - Wessel Umwelttechnik GmbH

We are looking for engineering offices with design authorization in the field of waste water treatment, drinking water technologies, biogas facilities and environmental remediation – ground water treatment, flood protection utilities, and rain water treatment facilities. We can supply technologies and equipment to green and brown field projects, construction of new facilities and intensification of existing ones.

We are looking for partner who could contact local communities and can be local project owners with design authorization and expertise in environmental consultancy, conduct and take part in public and private project tenders.
